CHEERLEADING CHANTS, CHEERS, AND YELLS

CHEERLEADER CHEERS CHANTS AND YELLS

If there is one thing that cheerleaders can never get enough of it is hot new cheers and chants to get the crowd going in support of their team. Cheerleaders are an important part of any sporting event.

The choice of cheers used is important. Not all chants can have the desired effect on the crowd and if the cheers aren’t delivered properly the can fail.

I have complied over 500 cheers, chants and yells that I found across the Internet to help fill your arsenal with the perfect chant at the perfect time.

About.com

Before you begin, remember these basic tips on using cheers in cheerleading:

- Don’t sing your cheers. Cheerleading cheers should not sound like a song.
- Be loud and lower the tone of your voice a level (a deeper voice carries further).
- Learn to use your voice from your diaphragm, not your throat when cheering.
- Make your motions sharp and snappy. Watch yourself in a mirror to improve your cheerleading motions.
- Smile and have fun!
